## WEB-BASED PERMIT MANAGEMENT

Utilizing State-of-the-Art web tools and Cloud databases, Dirigo Permit System provides

- Permit creation and editing
- Supports unlimited types of permits
- Permit Card generation in PDF format suitable for printing and emailing
- Financial reports with State, DEP and Town breakdowns
- Automatic Email notifications to other Town Officials and Staff
- Inspection recording and tracking
- Dashboard Charts show key status indicators

A comprehensive collection of building permit data can be entered and included on a variety of forms such as Certificate of Occupancy and Assessor's Copy. Permit applicant, contractor and engineer contact data are managed so that their information can be reused for subsequent permits saving time and increasing accuracy.

## **E911 ADRESSING**

Dirigo Permit System also supports E911 addressing, producing templated letters for new address, change of address, and new road situations. Letters are generated as PDF files, complete with signature of the addressing officer, and are suitable for printing and mailing or emailing directly from DPS.
